

## Filter by demand

---

### Student instructions

Which careers are projected to be increasing in demand? What factors do you think are influencing the increase? Do any of these careers interest you and why?

- 1 From **Explore careers** in Xello, click **More filters** and select **Increasing** career demand. Choose 1 or 2 **Career clusters** that are suggested for you, or a cluster that is of interest.
- 2 Review the results based on the selected filters. Which career surprises you the most? Which career would you consider a possibility for yourself? Review at least 3 career profiles before saving one.
- 3 At the top of the profile, choose an emoji to indicate how you feel about this career.
- 4 Within **My notes**, add a short reflection in regards to the increasing career demand:
  - Which factor do you think is impacting the demand? Why do you think this? (Technological, Economical, Social, Demographic, Business practices, Consumer behaviour, or Workplace restructuring).
  - Consider checking out the *occupational projection summaries* on the [Canadian occupational projection system](#) to support your answers. Use the NOC title search field with the **contains** option selected to find more information about a particular career's projections results.
