

# Student dashboard

Xello's student dashboard includes links to assigned tasks, clear next steps, and emphasis on educator-created content. Here's an overview:

1 The icons at the top of the page provide easy access to other sections in Xello.

## Home

- Lessons
- Portfolios
- Surveys
- Assignments

## Explore

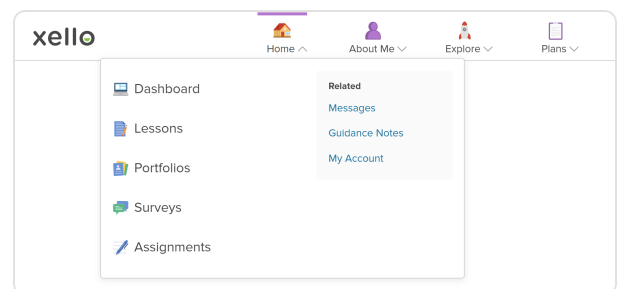

- Careers
- Opportunities
- Pathways

## About Me

- Matchmaker
- Personality Style
- Learning Style
- Skills Lab
- My CV

## Plans

- Plans
- Goals

- 2 The **To-do list** brings all their assigned tasks into one organised and easy-to-manage place. The tasks on the list are automatically arranged to help them prioritize.
  - Any tasks with a closer due date, or those that are late, will appear right at the very top of their list. This ensures they always see their most urgent work first.
  - Other assigned tasks, including those marked as optional by an educator, will follow below.
- 3 The quick links provide another easy way for students to access other parts of Xello.
- 4 Xello **Portfolios** lets students easily create and share vibrant portfolios to showcase their work across subjects and reflect on what they've learned. Students can highlight the self-exploration and planning they've done in Xello and add their own artifacts, like photos, videos, and journal entries.
- 5 **Links & Resources** allow students to access any resources you have uploaded for them.
