

Xello's dashboard feed

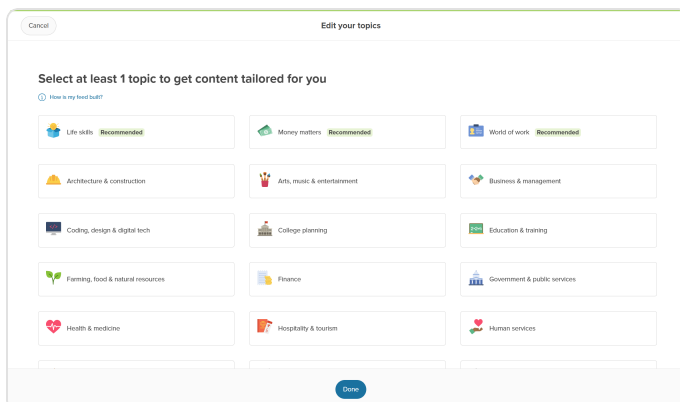

Xello's dashboard helps you explore your future! Your personalised feed will show you jobs and topics you like, and a **To-Do list** helps you finish tasks on time.

How the feed works

The feed is fully personalised to you. It's based on your saved careers, colleges & universities, courses & apprenticeships, and the topics you choose. So the more you interact with features in Xello, the more personalised the feed will be to you and your interests.

To change or narrow the focus of the feed, click **Edit feed topics** and select your favourite topics.

As you browse the feed, show your interest in the topics with a reaction.
