

Rank Program Factors

Student Instructions

Your priorities may change as you learn more about **Careers, Majors, and Schools**. If you know what's important to you in a program after high school, you'll find it easier to narrow your postsecondary education options. In this activity, you'll create a tool to help you identify preferred education programs to help you attain your postsecondary goals.

In Xello's **Program Prospects** lesson you were introduced to a list of factors to help you select programs that best suit your postsecondary goals. Reflecting on these factors as you research programs can be an effective strategy when making postsecondary decisions.
